- Completed 2 weeks virtual internship on [Front End Development](#) under IBM Skill Build Program
- DSA [Certification](#) on Udemy.

TECHNICAL SKILLS

• Programming Languages

- C++
- C
- Java

• Frameworks & Libraries

- HTML, CSS, Bootstrap
- ReactJS, NodeJS, ExpressJS

• Tools Used

- Git
- Postman

• Database

- MongoDB
- SQL

COURSEWORK

- Operating System
- Computer Networks
- Object Oriented Programming
- Database Management System

EDUCATION

B.E. (CSE) - 8.1 CGPA

[Sapthagiri College of Engineering](#)

📅 2020 – 2024

📍 Bangalore , Karnataka

XII Higher Secondary - 80.8%

[Hem Sheela Model School](#)

📅 2020

📍 Durgapur , West Bengal

X Secondary - 84%

[Hem Sheela Model School](#)

📅 2018

📍 Durgapur , West Bengal

PROJECTS

[Tomato](#)

- **ReactJs | NodeJS | ExpressJs | MongoDB | Stripe**
- With a user-friendly interface, customers can easily **add , remove food products , review the cart during checkout,see placed orders with their estimated date and time of delivery.**
- Used **Stripe.js** for payment from the user
- Integrated **secure authentication and login** with **forget password** for customers. [Github](#)

[Real Estate Application](#)

- **React | CSS | JavaScript**
- Created a **Real Estate** website , in which the users can look into the wide range of properties available , and can buy according to their choice.
- This is a **frontend** project created using **React**
- Consist of some basic **CSS Animations and Designs.** [Github](#)

[Chat Application](#)

- **React | CSS | JavaScript | Firebase**
- This is a simple **social-media** application , where we can chat with our friends , families and close ones .
- Integrated **secure authentication and login** with **forget password** for customers, and implemented this functionality using **firebase.**
- Consist of some basic **CSS Animations and Designs .** [Github](#)

[Tour & Travel Website](#)

- **HTML | CSS | JavaScript**
- It is a **Frontend website** in which customers can look into the **tour plans** available, **look & compare the ticket prices , book tickets and many more.**
- Added functionalities like **Login & Signin** into user account.
- Consist of some basic **CSS Animations and Designs.** [Github](#)
